Welcome to Norpoint Medical

Norpoint Medical is a dutifully licensed private EMS Agency and Government Contractor, based out of Washington State, US, providing Emergency Medical Service's for Government and Private entities. We are also the only private EMS agency providing licensed emergency response vehicles (ERV) on all of our contracts.

Norpoint Medical, as a certified American Safety and Health Institute training center, trains, equips, and drills in house First Care Provider Teams for Government and Corporate clients. The **FCP** program is a fast paced 16 hour training course that prepares your **First Care Provider Team** for responding to medical emergencies within your facility, school, office complex, industrial plant, etc. This course is also highly applicable to security teams assigned to large facilities where EMS access is limited, delayed, or where security is the First Responder to a medical emergency.

In the event of a natural or other disaster our **Emergency Action Planning & Readiness Assessment** services will better prepare you and your people to respond, act purposefully, and deal with the highly stressful and chaotic environment that can mean the difference between life and death.
